## GCSE MARKING SCHEME

AUTUMN 2017

GCSE<br>MATHEMATICS<br>UNIT 1 - FOUNDATION TIER 3300U10-1

## INTRODUCTION

This marking scheme was used by WJEC for the 2017 examination. It was finalised after detailed discussion at examiners' conferences by all the examiners involved in the assessment. The conference was held shortly after the paper was taken so that reference could be made to the full range of candidates' responses, with photocopied scripts forming the basis of discussion. The aim of the conference was to ensure that the marking scheme was interpreted and applied in the same way by all examiners.

It is hoped that this information will be of assistance to centres but it is recognised at the same time that, without the benefit of participation in the examiners' conference, teachers may have different views on certain matters of detail or interpretation.

WJEC regrets that it cannot enter into any discussion or correspondence about this marking scheme.

| GCSE Mathematics Unit 1 : Foundation Tier Autumn 2017 <br> Final Marking Scheme | Mark | Comment |
| :---: | :---: | :---: |
| 1. (a) straight line drawn joining 2 points on circumference passing through centre | B1 |  |
| 1. (b) straight line touching circumference | B1 |  |
| 2. (a) 317 | B1 |  |
| 2. (b) 157 | B1 |  |
| 2. (c) 4 | B1 |  |
| 2. (d) 60 | B1 |  |
| 3. (a) 15 | B1 |  |
| 3. (b) 0 | B1 |  |
| 3. (c) 1 | B1 |  |
| 4. (a) 54 | B1 |  |
| 4. (b) 20 | B2 | B1 for an ordered list that is sufficient to identify the middle term $\text { e.g. } 13,16,17,18,20,(22,24,25,27)$ <br> Allow omission of one value |
| $\text { 5. (a) } \begin{gathered} 5 / 15 \\ 1 / 3 \end{gathered}$ | $\begin{aligned} & \text { B1 } \\ & \text { B1 } \end{aligned}$ | FT 'their $5 / 15$ ' provided simplification is possible and that it is a fraction less than 1 |
| 5. (b) 8 squares shaded | B1 |  |
| 6. (a) 44000 | B1 |  |
| 6. (b) 9 | B1 |  |
| $\begin{gathered} \text { 7. }(y=) 360\left({ }^{\circ}\right)-\left[60\left({ }^{\circ}\right)+90\left(\left(^{\circ}\right)\right]\right. \text { or equivalent } \\ 210\left({ }^{\circ}\right) \end{gathered}$ | $\begin{aligned} & \hline \text { M1 } \\ & \text { A1 } \end{aligned}$ |  |
| 8. (a) correct shading of two squares so that AB is the only line of symmetry | B1 |  |
| 8. (b) correct shading of one square so that $C D$ is the only line of symmetry | B1 |  |
| 8. (c) correct shading of two more squares so that there is still rotational symmetry of order 2 | B1 |  |

\begin{tabular}{|c|c|c|}
\hline \begin{tabular}{l}
9. \\
(Length of rectangle \(B=25 \times 5=\) ) 125 OR \\
(Width of rectangle B = \(8 \times 5=\) ) 40 \\
(Perimeter of rectangle \(B=) 125+125+40+40\)
\[
330 \text { (cm) }
\] \\
Organisation and communication \\
Accuracy of writing
\end{tabular} \& B1
M1
A1

OC1
W1

W \& | FT 'their 125' and 'their 40' |
| :--- |
| CAO |
| Alternative solutions: |
| (Perimeter of rectangle $A=$ ) $\begin{array}{r} 25+8+25+8(\mathrm{~cm}=66) \quad M 1 \\ 5 \times 66(\mathrm{~cm}) \quad \mathrm{M1} \end{array}$ |
| FT $5 \times$ 'their derived perimeter' |
| (Perimeter of rectangle $B=5 \times 66=$ ) 330 (cm) A1 |
| OR $\begin{array}{r} 25 \times 5+8 \times 5(=125+40=165) \quad M 1 \\ 2 \times 165 \quad M 1 \\ \text { FT 'their } 165^{\prime} \\ (2 \times 165=) 330 \quad A 1 \tag{A1} \end{array}$ |
| For OC1, candidates will be expected to: |
| - present their response in a structured way |
| - explain to the reader what they are doing at each step of their response |
| - lay out their explanations and working in a way that is clear and logical |
| - write a conclusion that draws together their results and explains what their answer means. |
| For W1, candidates will be expected to: |
| - show all their working |
| - make few, if any, errors in spelling, punctuation and grammar |
| - use correct mathematical form in their working |
| - use appropriate terminology, units, etc. | <br>

\hline $$
\text { 10. (a) } \begin{aligned}
& A \hat{Y} X=63^{\circ} \\
& A Y=7.2 \mathrm{~cm} .
\end{aligned}
$$ \& \[

$$
\begin{aligned}
