## GCSE MARKING SCHEME

AUTUMN 2017

GCSE<br>MATHEMATICS - NUMERACY UNIT 1 - FOUNDATION TIER 3310U10-1

## INTRODUCTION

This marking scheme was used by WJEC for the 2017 examination. It was finalised after detailed discussion at examiners' conferences by all the examiners involved in the assessment. The conference was held shortly after the paper was taken so that reference could be made to the full range of candidates' responses, with photocopied scripts forming the basis of discussion. The aim of the conference was to ensure that the marking scheme was interpreted and applied in the same way by all examiners.

It is hoped that this information will be of assistance to centres but it is recognised at the same time that, without the benefit of participation in the examiners' conference, teachers may have different views on certain matters of detail or interpretation.

WJEC regrets that it cannot enter into any discussion or correspondence about this marking scheme.

| GCSE Mathematics - Numeracy <br> Unit 1: Foundation Tier <br> Autumn 2017 <br> Final | Mark |  |
| :--- | :--- | :--- |
| 1(a) (1, 8) Comment |  |  |

(a)

| 3(a)(ii) (Working hours are) 8 hours (per day) | B1 | May be seen or implied in workings for the Carpenter. |
| :---: | :---: | :---: |
| (Fee for Carpenter is) $20 \times 8(\times 3)$ | M1 | FT $20 \times$ 'their hours' including 9 hours ( $\times 3$ ) |
| (£)480 | A1 | This may be seen or implied by correct answer of total fees. |
|  |  | Answer of $£ 540$ from $20 \times 9 \times 3$ award BO M1 A1 |
| (Fee for Plumber is) ( $\mathbf{1 8 0} \times 3=$ ) (£)540 | B1 |  |
| (Total cost of fees are $480+540+575=$ ) (£) 1595 | B1 |  |
|  |  | derived fee for carpenter' + 'their derived fee for plumber' +575 |
|  |  | Note: |
|  |  | For $160+540+575=1275$ award B1, M1, AO, B1, B1 |
|  |  | Common incorrect answer of $(540+540+575=) 1655$ Award B0 M1 A1 B1 B1 |
| Organisation and communication Accuracy of writing | $\begin{aligned} & \text { OC1 } \\ & \text { W1 } \end{aligned}$ | For OC1, candidates will be expected to: |
|  |  | - present their response in a structured way |
|  |  | - explain to the reader what they are doing at each step of their response |
|  |  | - lay out their explanations and working in a way that is clear and |
|  |  | logical |
|  |  | - write a conclusion that draws together their results and explains |
|  |  | For W1, candidates will be expected |
|  |  | to: <br> - show all their working |
|  |  | - make few, if any, errors in spelling, punctuation and grammar |
|  |  | - use correct mathematical form in their working |
|  |  | - use appropriate terminology, units, etc. |
| 3(b) 11 (cm) ( $\pm 2 \mathrm{~mm}$ ) | B1 | (10.8 (cm) to 11.2(cm)) |
| $11 \times 50(\div 100)$ | M1 | FT 'their 11' |
| 5.5 (metres) | A1 | Answer must be in metres only. |
|  |  | E.g. |
|  |  | For an answer of 5 m 50 cm or 550 cm using 11 cm award B1 M1 A0 |
|  |  | Measurements of: |
|  |  | 10.8 cm gives 5.4 m |
|  |  | 10.9 cm gives 5.45 m |
|  |  | 11 cm gives 5.5 m |
|  |  | 11.1 cm gives 5.55 m |
|  |  | 11.2 cm gives 5.6 m |

| 4(a) 14 | B1 |  |
| :--- | :---: | :--- |
| 4(b) Correct explanation given <br> E.g. <br> 'You add on 4 each time.' <br> 'There are 2 lengths that are common.' <br> 'There is some overlap.' <br> 'Start with 6 but then add on 4 each time' <br> 'Because after each link you need another 4 <br> lengths of silver' <br> 'Because she only needs 4' <br> 'Because you don't add on the middle links' <br> 'If she uses 6 lengths of silver then she will <br> have 2 spare for all but the first one' <br> 'Needs 6 lengths of silver for only the 1st link' |  |  |

| 5(a) - $18^{\circ} \mathrm{C}$ | B1 |  |
| :---: | :---: | :---: |
| 5(b) -95 ${ }^{\circ} \mathrm{C}$ | B1 |  |
| 5(c) Answer in the range 50 to $57\left({ }^{\circ} \mathrm{C}\right.$ ) | B2 | Allow an answer in the range -50 to -57 <br> Award B1 for a correct calculation that would lead to an answer in the range 50 to 57 or -50 to -57 with values used in the range (10 to 12) and (-40 to -45) <br> Eg Award B1 for $10-(-40) \text { OR }$ <br> - 40 - 10 OR $12-44 \mathrm{OR}$ <br> $11+43$ <br> If no marks award B 1 for the numbers (10 to 12) and ( -40 to -45 ) used in an addition or subtraction calculation e.g. $12-44=\ldots \ldots$. |
| $\begin{aligned} & \text { 6. } 20 \times 4 \text { OR } 20+20+10+20+20+10 \\ & 80(\mathrm{~cm}) \text { AND } 100(\mathrm{~cm}) \\ & 20(\mathrm{~cm}) \end{aligned}$ | $\begin{aligned} & \hline \text { M1 } \\ & \text { A1 } \\ & \text { B1 } \end{aligned}$ | FT 'their derived 100 ' - 'their derived 80' <br> Alternative markscheme: <br> Award SC3 if rectangular diagram labelled with all dimensions and answer given as 20 cm <br> Award SC2 if rectangular diagram labelled with dimensions on one width and one length and answer given as 20 cm <br> Award SC2 if either 80(cm) or 100 (cm) seen with an answer of $20(\mathrm{~cm})$ <br> Award SC1 if diagram labelled with dimensions on at least one width and one length (with 20 cm not given) <br> Award SC1 if only 20 cm seen with no workings or dimensions labelled <br> Award SC1 if 20 cm seen with only one dimension labelled <br> Note: the dimensions may be implied from their workings or statements |

| 8(b) Need 8 metres of panels | S1 | Stated or implied |
| :---: | :---: | :---: |
| Panels, any indication of 1 the following: <br> - $4 \times 2$ (m) <br> - $2.5(\mathrm{~m}), 2(\mathrm{~m}), 2(\mathrm{~m}), 1.5(\mathrm{~m})$ <br> - $\quad 2.5(\mathrm{~m}), 2.5(\mathrm{~m}), 2(\mathrm{~m}), 1(\mathrm{~m})$ <br> - $2.5(\mathrm{~m}), 2.5(\mathrm{~m}), 1.5(\mathrm{~m}), 1.5(\mathrm{~m})$ | B2 | Posts and panels do not have to be shown in any particular order (also see diagram) FT from 8.5 - 'their width for post(s)', provided 4 possible whole panels are selected |
|  |  | B1 for any 1 of the following: <br> - if total length of their 4 panels adds to 8.5 m (posts forgotten) <br> - if total length of their number of panels, $\neq 4$, adds to 8 m <br> - using 4 panels (not adding to 8m) <br> - FT 8.5 - 'their width for post(s)' provided 2 or 3 whole panels are selected <br> Do not accept any panels cut into fractions |
| Cost for the fence as appropriate: <br> - $5 \times 14+4 \times 30$ <br> - $5 \times 14+40+2 \times 30+26$ <br> - $5 \times 14+2 \times 40+30+18$ <br> - $5 \times 14+2 \times 40+2 \times 26$ | M2 | Ignore any incorrect units for M2 or M1 <br> FT provided B1 or S1 previously awarded for M2 or M1 (but A0) M1 for 1 of the following: <br> - calculation costing 'their panels' only (posts not included), <br> - cost of posts $(5 \times 14=)$ (£) 70 , which may be elicited from within a calculation |
| (£) $190 \mathrm{OR}(£) 196 \mathrm{OR}(£) 198 \mathrm{OR}(£) 202$ | A1 | CAO <br> Only these answers accepted and must be from correct working. Do not ignore incorrect units, if a unit is given it must be correct |
| 8(c) 1 (.) $50 \times 0$ (.) $10 \times 4 \times(0.0) 2$ | M2 | Allow inconsistent units for M marks Ignore any extra faces painted M1 for 1 (.) $50 \times 0$ (. $) 10$ with either $\times 4$ or $\times(0.0) 2$ |
| 120(p) OR (£) $1.2(0)$ | A1 | CAO, if units are given they must be correct for A1 <br> Do not ignore further working, such as painting top and/or bottom of the post (for A mark) |

\begin{tabular}{|c|c|c|}
\hline 9.
$$
\begin{aligned}
& a=113^{\circ} \\
& b=108^{\circ}
\end{aligned}
$$
$$
c=51^{\circ}
$$
$$
d=51^{\circ}
$$ \& B1
B1

B1

B1 \& | FT throughout |
| :--- |
| FT 360-67-72 - 'their a', or 221 - 'their a' |
| (Check if $a+b=221$ ) |
| FT 180-21 - 'their b', or |
| 159 - 'their b' |
| (Check if $b+c=159$ ) |
| FT for 'their d' = 'their c' provided $c \neq 90^{\circ}$ and $c \neq 180^{\circ}$ or any other multiple of $90^{\circ}$ | <br>

\hline 10(a) All 6 plots correct \& B2 \& | B1 for |
| :--- |
| - any 3,4 or 5 correct plots not joined point to point, or |
| - all 6 correct plots but joined point to point |
| Ignore sight of any attempt at a line of best fit | <br>

\hline 10(b) YES and a reason, e.g. 'positive correlation', 'increase in height with increase in waist', 'the height and waist are increasing' \& E1 \& Do not accept reference using values from the table, without further explanation <br>

\hline | 10(c) Reason, e.g. |
| :--- |
| 'the measurements for these 6 people show correlation, but people don't come in standard sizes', 'it is only 6 people', 'not all people follow the trend', 'waist and height measurements are not directly proportional', 'not enough data', 'you really need more data to tell', 'because she could have chosen the people on purpose to prove her point', 'because some people are thinner than others but the same height', 'some waists might be the same as others' | \& E1 \& | Ignore additional comments referring to improvement |
| :--- |
| Allow, e.g. |
| 'Ffion has not considered children', 'because waist sizes often vary', 'because not everybody is the same', 'they are not always in a straight line' |
| Do not accept, e.g. 'could be measured incorrectly', 'could repeat the experiment', 'measure more people', 'get more data' (implies how to improve, not a comment on the data given) |
| Do not accept reasons based on how to improve the experiment alone | <br>

\hline | $\begin{gathered} 11(\mathrm{a}) 5 \times 13+26+9 \times 7+38 \\ (91+101) \end{gathered}$ |
| :--- |
| (£)192 |
| (Change) (£) 8 | \& M1

A1

B1 \& | Attempt to add must be implied, not for sight of $5 \times 13+26$ and $9 \times 7+38$ CAO |
| :--- |
| If units are given they must be correct |
| FT 200 - 'their $£ 192$ ' provided $\leq £ 200$ and either |
| - (£)91 or (£)101 seen in a sum of two amounts, or |
| - M1 previously awarded |
| Do not accept either $\begin{aligned} & 5 \times 13+26+9 \times 5+38(=£ 174) \text { or } \\ & 7 \times 13+26+9 \times 7+38(=£ 218) \text { as } \end{aligned}$ misreads, however award of B1 may be possible | <br>

\hline
